# Out -n-About™

App For Android and Apple Mobile Phones and  
Tablets

## What Is Out-n-About ?

Out-n-About is an app suitable for Android and Apple mobile phones and tablets, specifically designed and engineered for Austravel members.

Out-n-About is not simply a generic "GPS logger" app; its purposely designed to interrelate with and support Austravel's HF radio network through its **Telcall+** and **H.E.L.P.** (4357) systems.

Together with recent technical upgrades and base station network expansion, Austravel has improved its abilities to deliver new initiatives that offers all Austravel members improved HF voice and data communications which benefits remote area travellers, their welfare and safety.

The Out-n-About app and its interrelationship with Austravel Safety Net Inc. has no equal within the Australian HF radio club environment.

Austravel, in conjunction with the Out-N-About app delivers reliable communication means between Austravel club members, their family or friends. A mobile phone/tablet app that provides not only GPS map positioning, but also two way message sending and receiving via the Austravel HF radio network:-

- from HF radio to mobile phones
- and then back the other way from mobile phones to HF radio

Just think, family and friends with the Out-n-About app can send you a short message without third party input; safe, secure and reliable. (*HF radio brand and model dependant*).

Not to be underestimated...the Out-n-About app has direct and useful technical benefits in relation to accessing critical HF radio emergency help and assistance from a team of dedicated Austravel emergency respondents.

The Out-N-About app is a worthwhile (once only) value added purchase via the Google Play Store or Apple App Store. To complete the package , a low cost annual subscription to Austravel's Telcall+ is required, with value inclusions like 100 minutes/month HF radio interconnect phone calls to any phone in Australia, along with 50 SMS messages/month to any Australian mobile phone.

Out-n-About subscribers are supported via installation and operation manuals together with one-on-one over the phone help when required.

This information on Out-n-About should be read in conjunction with the **Telcall+** and **H.E.L.P.** (4357) information leaflets.

**Austravel Safety Net Inc.**

**The HF Radio Communications Network for Trips, Treks, Tracks & Tours**

## Out-n-About App

(in conjunction with Telcall+ )

- View map positions
- View GPS history
- Log GPS positions by mobile phone or HF radio
- Send "Mail Box" messages to any HF radio (Telcall+ dependant)
- Send SMS via HF radio to any Australian mobile phone
- Find an Austravel emergency operator
- View a list of operational bases
- View a list of message metadata
- Request GPS position of HF radios
- Get **H.E.L.P.** via a GPS "position send" call. Out-n-About sends your critical details in an alert email to all Austravel emergency respondents for action.
